Your Toledo Rotary Club Foundation Foundation Receives \$96,807 Gift!

The Toledo Rotary Club Foundation recently received a second bequest of \$96,807.42 from the estate of Rachel Merrill. Rachel's previous bequest to the Foundation was received in 2017 for \$91,338.17.

Just a little history about Rachel and her late husband Arthur:

Rachel Merrill died at the age of 100 in 2001. According to her obituary, she was a nurse at Parkview Hospital for many years and held memberships in Collingwood and Christ Presbyterian Churches, and was also a member of Inverness Club, the Toledo Club and the Daughters of the American Revolution. Rachel's first husband was Arthur E. Bacon, who was 83 when he died in 1953. At that time, Mr. Bacon was the general manager of the Toledo Stove & Range Company and a member of the Rotary Club of Toledo. According to the obituary, he was also Toledo's oldest active bowler.

These two substantial gifts were from charitable remainder trusts which Rachel set up to benefit nieces. When these nieces passed on, according to the terms of the trusts, the Foundation was one of three charities who received the remainder from each trust. Rachel obviously held the Foundation in high esteem to make these gifts to it which provide major financial support to our ongoing community grants.

Did You Know?

The Rotary Foundation Health, Hunger and Humanity (3-H) program was launched in 1978. The program was developed to improve health, alleviate hunger, and enhance social development. In 1980, the 3-H Committee met and decided it needed to tighten the focus of the projects the program would cover. They established priorities for each goal:

*For health, priority 1 was the prevention of polio, priority 2 was primary health care and health education, and priority 3 was treatment and rehabilitation.

*For hunger, the first priority was water resources, with emphasis on education and demonstration, and priority 2 was on agriculture, again emphasizing education and demonstration.

*For humanity, priority 1 was literacy, priority 2 was vocational training, and priority 3 was emergency assistance.

The first 3-H project was in 1979 when 683,870 doses of donated tetanus toxoid vaccine were sent to the Philippines to protect more than 340,000 children and adults from the tetanus disease.
