**MONDAY,
JULY 29, 2019**

**MARLON KISER,
PRESIDENT/ CEO**

The History Of WGTE

Firmly rooted in education and discovery, since 1952 WGTE has built on the proposition of the Greater Toledo Educational Television Foundation. What began as French lessons in classrooms at Toledo Public Schools continues today with interactive classroom programs, educational and entertaining shows for preschoolers, community educational opportunities, and quality programming for the whole family. Clearly, we have left our mark on generations of learners, but we have offered so much more. We have enriched the lives of those we have touched. Those are immeasurable milestones.

That message still rings true today and perhaps is even more true in our modern world of entertainment. With these words and our educationally focused mission, the staff at WGTE dedicate their efforts to to educate the next generation of learners.

GRANT SPOTLIGHT

GIRLS ON THE RUN 2018-19 2ND CYCLE

\$8,900

COMMUNITY SERVICE COMMITTEE

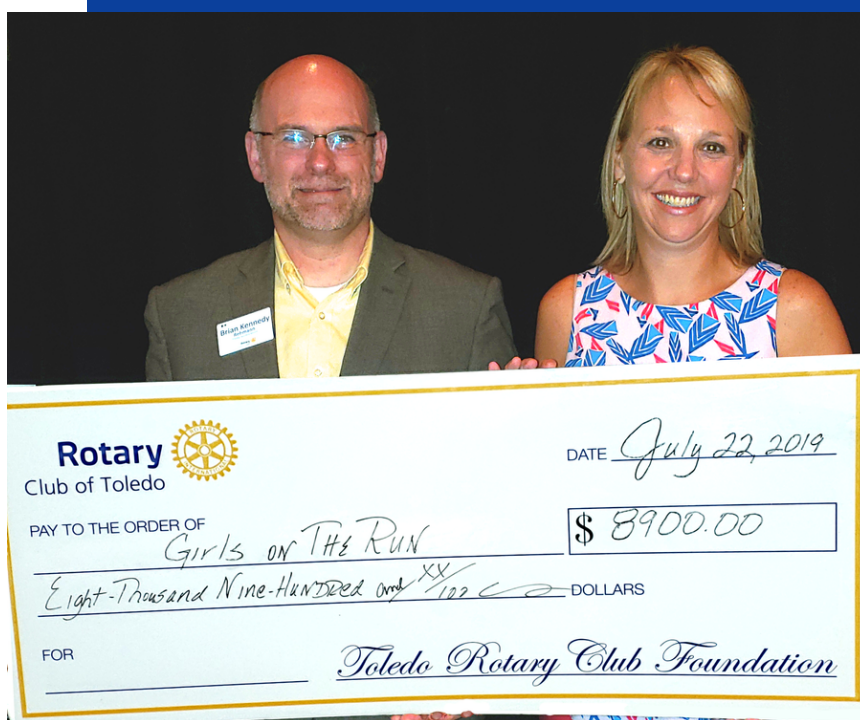

Girls on the Run 5K Signage & Fencing

The Girls on the Run 5k is the culminating celebratory event of a life-changing 10-week program for girls in 3rd-8th grade. Girls on the Run of Northwest Ohio's first 5k in 2012 was for 22 girls and this May we will have over 700 girls completing the program and over 1600 participants at the 5k. As we grow, our need for prominent and durable signage at our 5k is growing as well.

We are looking to purchase branded arches and feather flags to help attendees easily find the places they need to go on race day, eliminating much confusion and congestion. The arches will be used to designate the team meeting area and the starting line. Once the girls enter the team meeting area the feather flags will direct them to the area where their specific team is meeting. We are also requesting rolls of mesh fencing to use in the finish line area keeping spectators from accessing the area. As our 5k events grow, we have noticed it is becoming difficult to keep the finish line area safe as the crowds like to congregate in this area.

All supplies are durable and will last 5-10 years, setting us up for long term success. If we are awarded this grant we would be able to have the supplies in time for our Spring 5k on May 18, 2019.

Advanced Manufacturing Program (AMP)

Purpose

To increase the competitiveness of Ohio's manufacturers by supporting the adoption, implementation, and extension of advanced manufacturing technologies.

Program

The Advanced Manufacturing Program is a competitive grant program to support innovation and encourage small and mid-sized Ohio manufacturers to incorporate new technologies into their products and processes.

For Whom

The program funds proposals from qualified Ohio non-profit organizations, research institutions and universities teamed with Ohio manufacturers.

<p>Northwest Ohio Manufacturing Extension Partnership</p> <p>INCREASE YOUR:</p> <p>PRODUCTIVITY</p> <p>GROWTH</p> <p>INNOVATION</p> <p>GLOBAL COMPETITIVENESS</p> <p><small>A network that aims to strengthen northwest Ohio's manufacturing industry by delivering solutions that accelerate effective and powerful innovations, training and resources that drive economic growth and create jobs.</small></p>	<p>OUR ECONOMIC IMPACT IN NORTHWEST OHIO SINCE 2016</p>

Dog knee printed by JuggerBot with FibreTuff biopolymer

Custom Orthotics

Using scanning equipment and scanning software, the Orthotist will now scan their patients body part and save the scan file on an external hard drive or on the cloud. The process takes only minutes and is very clean, requiring no plaster wraps or fiberglass.

Smart Wearables

Orthotics embedded with thermal and pressure sensors that can point out specific areas of the feet that have insufficient blood supply.

Supporting smartphone application would alert the wearer if one area of the foot is not getting blood supply. Such technology would greatly minimize the risk of amputations.

Welcome New Member

Wes Grudzien,
Marketplace Ninja

Wesley has been a Rotarian since 2013, but his experience with Rotary began long before as a member of the 2008 Rotary GSE team that visited Central India. Since then, he has worked on numerous projects at the club and district levels including helping to facilitate the Rotary District 6600 Youth Conflict Resolution and Leadership Workshop and multiple District Conferences. Currently, he serves as the District Rotaract Co-Chair with his wife Allison, a member of Perrysburg Rotary, and will be serving as the Chief of Staff for District Governor 2020-2021, Keith Hodkinson.
