Magnetic Leadership: Becoming the Leader People Choose to Follow

Kevin believes influence is the key to moving projects forward, increasing revenue, and leading teams.

Speaking and Keynotes, Training and Professional Development, Consulting and Advisory

I help organizations solve people problems at the systems level.

The key to my success in my professional career has been CURIOSITY! I love to ask questions, learn, investigate, ideate and explore.

Which pillar of the 4-Way Test resonates most with your professional life and why?

Is it fair to all concerned?

Our thoughts, decisions, and actions may NOT always be fair to all who are involved, BUT I think we should consider if it is and why it may or may not be. The notion of fairness should take into account many variables that impact those involved.

The Four-Way Test: Week #3: Will it build goodwill and better friendships?

It encourages actions that strengthen relationships, foster understanding, and create collaboration.

This week, ask yourself: Will my words and actions build goodwill and better friendships?
